Hey Guys,

Just realized I made a mistake and didn't check code....

Anything over 30in is too big it won't pass code...

We have to go with a smaller vertical banner more like 30"x96"

My installer says 96" is very big and we should go smaller on the Height more like 30"x48"

Let me know which we want to go with there will be a slight adjustment in the design and pricing.

My apologies guys,

Thanks

Just noticed in another email it was (4) Vertical Banners and (2) Fence Banners,

is this correct?
